# NASIB P V

## FULL STACK DEVELOPER

in https://www.linkedin.com/in/ nasib-pv

#### SUMMARY

As a recent graduate in B C A, I am eager to apply my academic background and passion for **HTML**, **CSS**, **JavaScript**, **React.js**, **Node.js**, **Express.js** and **MongoDB** to contribute effectively in a dynamic professional environment. I am keen on gaining practical experience and making meaningful contributions to a growth-oriented team.

#### TECHNICAL SKILLS

Languages : JavaScript, Node.js, HTML, CSS

Framework : Express.js , Bootstrap

Libraries : React.js, Redux, Mongoose

Databases : MongoDB

**Dev Tools** : Visual Studio Code, Git, Github

#### PROJECT

## Tech Talent Learn - Institute Platform Management Sysytem

- Developed a Education Platform App with React.js, Redux, node.js, Express and MongoDB
- User authentication with **JWT**, like, add, edit, delete, interact with staff and student
- Admin Module: Staff and Student Management s, Staff Attendance Mark, Request Managements, etc...
- Staff Module: Student Attendance Mark, Complaints, Leave Request, View student attendance details
- Student Module: Attendance History, Sent Complaint and Leave request

#### **Features**:

- Implemented a search functionality for quick and easy access to user information.
- CRUD Operations:

Add: Ability to add new staff members, students, and their details.

**Edit:** Edit existing information for staff and student profiles.

**Delete:** Remove unnecessary records securely.

• Staff can mark attendance for classes, and students can view their attendance history.

# X-in-Store - A Simple ecommerce store

- Developed a E-commerce with React.js, Redux
- Information includes product description, price, and additional details.
- The cart should display the added items with details like quantity and total price.
- Users can view the contents of their shopping cart.
- Allow users to add products to their wishlist for future reference.
- Ensure the website is responsive and provides a seamless experience on different devices.
- Live Website :- <a href="https://nasibpv.github.io/xinstore-redux-/">https://nasibpv.github.io/xinstore-redux-/</a>

### **Netflix Web App**

- Create a responsive Netflix web application using React
- APIs to enhance content discovery features and improving user satisfaction

### EDUCATION

## Bachelor of Computer Application (BCA)

Kannur University (2019-2022)

## CERTIFICATIONS

## **Certified Mearn Stack Developer**

Luminar TechnoLab - 2022 (Nov) -2023 (Jun)
